SUMMARY

Full Stack Developer with professional experience building and maintaining web and mobile applications using the PERN and MERN stacks. Experienced in React.js, Node.js, Express.js, PostgreSQL, REST API integration, authentication, and admin/user panel development. Hands-on experience developing product features for Android applications, modifying existing applications, integrating APIs, debugging production issues, and working across frontend and backend systems.

SKILLS

Languages: JavaScript (ES6+), SQL, HTML5, CSS3

Frontend: React.js, React Hooks, Context API, Redux Toolkit, Tailwind CSS, Responsive Design

Backend: Node.js, Express.js, REST APIs, JWT Authentication, API Integration

Databases: PostgreSQL, MongoDB, SQL Server, MySQL

Architecture: PERN Stack, MERN Stack, MVC Architecture, RESTful Architecture

Tools: Git, GitHub, Postman, Socket.io, Gemini API

Soft Skills: Problem Solving, Communication, Adaptability, Team Collaboration

EXPERIENCE

Full Stack Developer | Thermal Engineers and Insulators

Jul 2026 – Present

- Developed and integrated product-related features for the company's Android application, supporting application functionality and user workflows.
- Developed and modified user and admin panels using React.js and the PERN stack to support business requirements and application workflows.
- Integrated and consumed REST APIs to connect frontend applications with backend services and database-driven functionality.
- Worked across frontend and backend components using PostgreSQL, Express.js, React.js, and Node.js.
- Modified existing application features, resolved functional issues, and implemented enhancements based on business requirements.
- Used Postman to test and validate API requests, responses, authentication flows, and application functionality.
- Collaborated with team members to debug issues and deliver changes across multiple applications.

Software Developer Intern | Akhil Systems

Dec 2025 – Jun 2026

- Debugged and resolved production issues in healthcare management applications built with ASP.NET Web Forms and SQL Server.
- Resolved issues in patient discount and refund workflows, improving transaction accuracy and reducing manual intervention.
- Modified and maintained SQL Server stored procedures to implement business logic and improve data accuracy.
- Investigated application issues, identified root causes, and implemented and tested software fixes before deployment.
- Collaborated with senior developers to maintain reliability and stability of production applications.

Frontend Developer Intern | Digihand India

Mar 2025 – May 2025

- Developed responsive client websites using React.js, JavaScript, HTML5, and CSS3.
- Integrated REST APIs to retrieve and display dynamic application data.
- Built reusable React components using React Hooks and component-based architecture.
- Collaborated with designers and backend developers to deliver production-ready frontend solutions.

EDUCATION

Dr. A.P.J. Abdul Kalam Technical University

Oct 2021 – Jun 2025

B.Tech in Information Technology | CGPA: 7.9/10

PROJECTS

AI Habit Tracker – Live | GitHub

- Built a full-stack AI-powered habit tracking application using MongoDB, Express.js, React.js, and Node.js.
- Implemented JWT authentication, protected routes, habit creation, tracking, analytics, and progress monitoring.
- Integrated AI-generated habit suggestions based on user goals and productivity preferences.
- Developed responsive interfaces using React.js and Tailwind CSS.

Authentication System – Live

- Developed a MERN-based authentication system implementing JWT authentication, authorization, protected routes, and secure user access.

ChatBlink – Live

- Developed a real-time chat application with instant messaging and group chat functionality using Socket.io.

CERTIFICATIONS

MERN Stack Development – Udemy

Introduction to Python – Internshala
